company profile

WHO WE ARE

kamarinos engineers is a Mechanical and Electrical engineering services company that specializes in designing building projects with sustainable solutions and innovative technologies with a solid track record of over 1,500 projects completed across Greek, European, and Middle Eastern markets.

After graduating the Munich University (Dipl.Ing -TH München) and working in Engineering firms in Germany and Sweden Panagiotis G. Kamarinos returned to Greece and founded **kamarinos engineers** in 1968. In 1998, the son of Panagiotis, Alexandros, an Imperial College graduate (Mech Eng - MEng, DIC), joined the firm. Their collaboration for over a decade resulted in a smooth integration between experience and expertise with new ideas and design methodology and in 2008 Alexandros became the Managing Director of the company.

Our portfolio includes various LEED projects in Greece such as the first Platinum LEED Project in Greece, the Athens College Kindergarten (8.000sqm), the Platinum LEED Mytilineos new Headquarters Building (20.000sqm) and the first Hospitality Gold LEED project in Greece, the Athens Moxy Hotel (10.000sqm), prestigious Hotels, F&B Areas around the world, Office Areas for multinational companies, Residential projects and unique Villas.

Our goal is to deliver sur-mesure sustainable, innovative engineering solutions from concept to hand over and beyond.

WHAT WE DO

kamarinos engineers provides MEP Design and Construction Services for building projects for the following installations:

- Energy Design and Efficiency
- Sustainability
- Public Health Engineering
- Heating, Ventilation, Air Conditioning
- Fire Safety Engineering
- Electrical Services
- IT, AV and Security
- BMS and LMS Systems

Our MEP services also include:

- Technical Surveys
- Technical due diligence
- Tendering
- MEP Construction Management
